

BTS General Education Courses: Qualification for Teaching

Persons will be considered as minimally qualified to do occasional teaching in BTS General Education courses if they have completed a graduate degree in the area in which they are expected to teach. Their graduate program will be reviewed by the BTS Department to assure that there is an adequate match between academic preparation and teaching assignment. The department will also look for evidence of continuing activity in the Biblical/Theological subject area since their degree was received. This may be evidenced through such things as publications, attendance at scholarly conferences, refresher courses, use of sabbatical time to prepare for the teaching assignment, etc.

Ownership: General Education Committee

Date Approved: September 30, 1986

Date Effective: September 30, 1986
